

## Boosted metabolism in a natural way

### axivite – pure efficiency for improved health

Take a look at axivite – a new innovation for modern sports nutrition. The health benefits of chili with its active ingredient capsaicin are well established in science. It boosts energy and performance pre-work out by increasing metabolism and adrenaline emission. It burns fat thermogenic and enhance production of body heat from metabolic. Post-work out it will help lower the energy intake and modify the food consumption through appetite and satiety regulation. It also reduces cumulative ad libitum, energy and carbohydrate intake.

axivite is a natural analogue of Capsaicin with up to 8 times higher bioavailability, no impurities or genotoxicity and suitable for large scale production.

- ✓ **Effective**  
Up to 8 times higher bioavailability
- ✓ **Safe**  
98% pure and clinical proven
- ✓ **Versatile**  
Non pungent and easy to handle
